

Extreme Adventure Ltd – Risk Assessment

Activity- Sniper Shot

What are the Hazards which cause:	Who/what may be harmed? (give specific of people e.g. staff, visitors, users or contractors)	What is done now? (i.e. provision of training, corporate and local standards, codes of safe working practice, supervision, monitoring systems)	What is the rate of Risk? (Rate risk as Low, Medium or High)	What action needs to be taken? (the needs to be considered in that the risks are identified and effectively controlled)	By when? (what is the target date for completion)
Dropping gun on Foot	Client	Staff give introduction to gun handling and assess with client is capable	Severity of Risk (S)- 2 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 2 LOW	Staff to be vigilant	Ongoing
Client being hit by the gun of another client	Client	Other clients are positioned well away	Severity of Risk (S)- 2 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 2 LOW	Staff to be vigilant and ensure clients are aware of this danger	Ongoing
Walking in front of the shooting area with the risk of being hit by a paint ball disc	Staff, Clients & Public	Shooting Area barrier off with fencing and marshalled	Severity of Risk (S)- 2 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 2 LOW	Staff to be vigilant	Ongoing

What are the Hazards which cause:	Who/what may be harmed? (give specific of people e.g. staff, visitors, users or contractors)	What is done now? (i.e. .provision of training, corporate and local standards, codes of safe working practice, supervision, monitoring systems)	What is the rate of Risk? (Rate risk as Low, Medium or High)	What action needs to be taken? (the needs to be considered in that the risks are identified and effectively controlled)	By when? (what is the target date for completion)
Injury from misuse of equipment	Staff, Clients & Public	Staff trained in use of the equipment and instructed how to run the activity	Severity of Risk (S)- 2 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 2 LOW	Staff instruct the clients and be vigilant	Ongoing
Possible injury from participant standing in the wrong place	Staff, Clients & Public	The area is planned out so that the risk of injury and people being in the wrong place is taken into account	Severity of Risk (S)- 2 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 2 LOW	Staff instruct the clients and be vigilant	Ongoing
Potential Eye Injury	Staff and clients	All people within the shooting zone must wear the goggles provided	Severity of Risk (S)- 3 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 3 MED	Staff instruct the clients and be vigilant	Ongoing
Potential misfire of paint ball gun causing injury	Staff and clients	All participants take through stringent safety talk about the safety catch and to point the gun in the direction of the range at all times	Severity of Risk (S)- 3 Likelihood of Risk (L)- 1 Overall Risk (S x L)= 3 MED	Staff instruct the clients and be vigilant	Ongoing

Calculation of Risk Evaluation

Severity (S)

Severity of Risk is judged by evaluating the effects of the hazard if the risk occurs.

This is evaluated as Minor = 1, Major = 2, Serious = 3

Risk Likelihood (L)

The likelihood of the harm occurring is evaluated on the following basis:

Unlikely =1, Possible = 2, Likely = 3

Overall Risk

Overall Risk is calculated by multiplying the figure for Severity (S) x Likelihood (L). The figure calculated is related to the rate of risk as follows

1 to 3 Low, 4 to 6 Medium, 7 to 9 High

Circulation	Management, Staff & Show or Event Organisers
Assessor	Andrew Caldwell
