

EXTREME ADVENTURE LTD

ENVIRONMENTAL POLICY

Extreme Adventure Ltd operates mobile event equipment and organises mass participation events on behalf of third party event organisers at temporary sites across the UK.

As a company we take our responsibility for the environment seriously, and are committed to achieving the best practicable environmental standards in all of its areas of business and regards environmental protection and sustainable development as key responsibilities.

Our objective is to minimise our net environmental impact and in so doing share best practice and encourage our customers and event participants to act responsibly whilst using our equipment or taking part in one of our events.

To ensure continual improvement in environmental performance for the benefit of all, our objectives are to:

- Respect and protect the environment;
- Continually improve our environmental performance;

Extreme Adventure Ltd shall:

- Comply with all relevant environmental legislation, regulations and other requirements to which we subscribe;
- Establish and review environmental objectives and targets;
- Communicate our policy internally and externally;
- Make the policy freely available on request;
- Ensure that all employees are aware of our environmental policy through a programme of training.
- Encourage our employees to participate in the review and implementation of this environmental policy.

Extreme Adventure Ltd shall seek to:

- Reduce waste production and emissions throughout our onsite and office operations;
- Minimise the consumption of energy on-site and within the office environment;
- Encourage and promote recycling of waste generated by our operations
- Prevent contamination of land or water arising from our company's operations.

Extreme Adventure Ltd.
